RE: Aerial Photographs  
Medley Farm Superfund Site  
Gaffney, Cherokee County, South Carolina

Dear Mr. Webb:

Attached please find five (5) aerial photographs taken by EPA contractors in 1983 and 1984. These were provided by EPA's Environmental Photographic Interpretation Center (EPIC) in Warrenton, Virginia. The Agency is providing these to RMT for use and consideration in planning the upcoming remedial design work, as set forth in the Record of Decision and Consent Decree for the site.

Two of the photos, frames 322 and 254, were taken on June 3, 1983, just prior to the removal action. The other three, frames 133, 134, and 144, were taken April 12, 1984, approximately nine months after the removal. Each photo is labelled on the back as to date, EPIC roll number, and frame number.

If there are any questions, please call me at (404) 347-7791.

Sincerely,

Ralph O. Howard, Jr.  
Remedial Project Manager
